TOP DENIALS

- **#1 MuSK+ or seronegative submitted for Vyvgart** — route MuSK+ to Rystiggo (J9333). Vyvgart is AChR+ ONLY.
- **#2 AChR antibody missing** — submit lab report (name, date, value, range).
- **#3 Re-cycle justification** — MG-ADL/QMG score change required.
- **#4 Wrong CPT (96413 chemo)** — use 96365 (IV) or 96372 (SC).
- **#5 JW waste line missing** — add waste line on strict 10 mg/kg.
- **#6 J9332 vs J9334 cross-coded** — code by formulation administered.
- **#7 Unit math error** — 1 unit = 2 mg (not 1 mg like Rystiggo).

PAYER QUICK NOTES

- **UHC / Aetna / Cigna / BCBS:** PA required; AChR+ antibody documentation universal; step through pyridostigmine + immunosuppressant.
- **Medicare Part B:** No NCD, MAC LCDs; covered on-label.
- **Site of care:** Office (POS 11) and AIC (POS 49) preferred. Vyvgart Hytrulo SC excellent home-administration candidate after 1–2 supervised cycles.
- **Re-cycle:** FDA label sets no fixed minimum; payers commonly impose 4–12 wk UM spacing.
- **Hub:** My Vyvgart Path 1-833-901-1937 / vyvgart.com (benefits, PA, copay \$0/dose commercial, PAP).
